- Notes: [a] Not available.
- [b] Two other possible interpretations are:
 "When the agents[AGENCY] were questioned for the first time, he/she/they [person or persons unknown] had no information" or
 "During the first questioning [of a person or persons unknown], the agents had no information."
- [c] This could be taken to mean "Twice I met ...". Alternatively there may be an inversion of subject and verb, with the subject in the 1st-group gap.
- [d] This could also be the adjective 'other'.
